

# CSS BRIEFING

ENTERPRISE KNOWLEDGE GRAPH

**For more information visit [stardog.com](https://stardog.com)**

DATA SILOS CREATE UNCONNECTED DATA  
**THAT'S A PROBLEM**

- **Early and Late Stage research and clinical trials**
- **Drugs, Interactions, Delivery Vehicles, Manufacturing & Supply Chain**
- **Licensing/Regulations across different markets**
- **Research expertise, experience, publications of personnel**
- **Ease of incorporating external ontologies, research, documentation**

# KNOWLEDGE GRAPHS EAT SILOS

Amazon.com, Inc.

Electronic commerce company

amazon.com

Amazon.com, Inc. is an American electronic commerce and cloud computing company that was founded on July 5, 1994, by Jeff Bezos and is based in Seattle, Washington. [Wikipedia](#)

# EATING DATA SILOS HELPS EVERYWHERE

- **NASA** is using them to go to Mars and return to the Moon
- **BNY MELLON & MORGAN STANLEY** are using them to deliver the bank's data
- **NIH & NCI** are linking research and grant documents, building the NCIT
- **APPLE, SAMSUNG** are improving Maps, streamlining reporting and maintenance
- **BOSCH** is delivering a universal product catalog and streamlining supply chain

KNOWLEDGE GRAPH =  
**KNOWLEDGE TOOLKIT**  
+  
GRAPH DATA

# WHAT'S A KNOWLEDGE TOOLKIT?

- **VIRTUAL GRAPHS** build knowledge across silos.
- **BUSINESS LOGIC** builds reusable, **LOGICAL REASONING** into the graph
- **INTEGRITY CONSTRAINT VALIDATION** empowers data standards
- **MACHINE LEARNING** integrates statistical reasoning

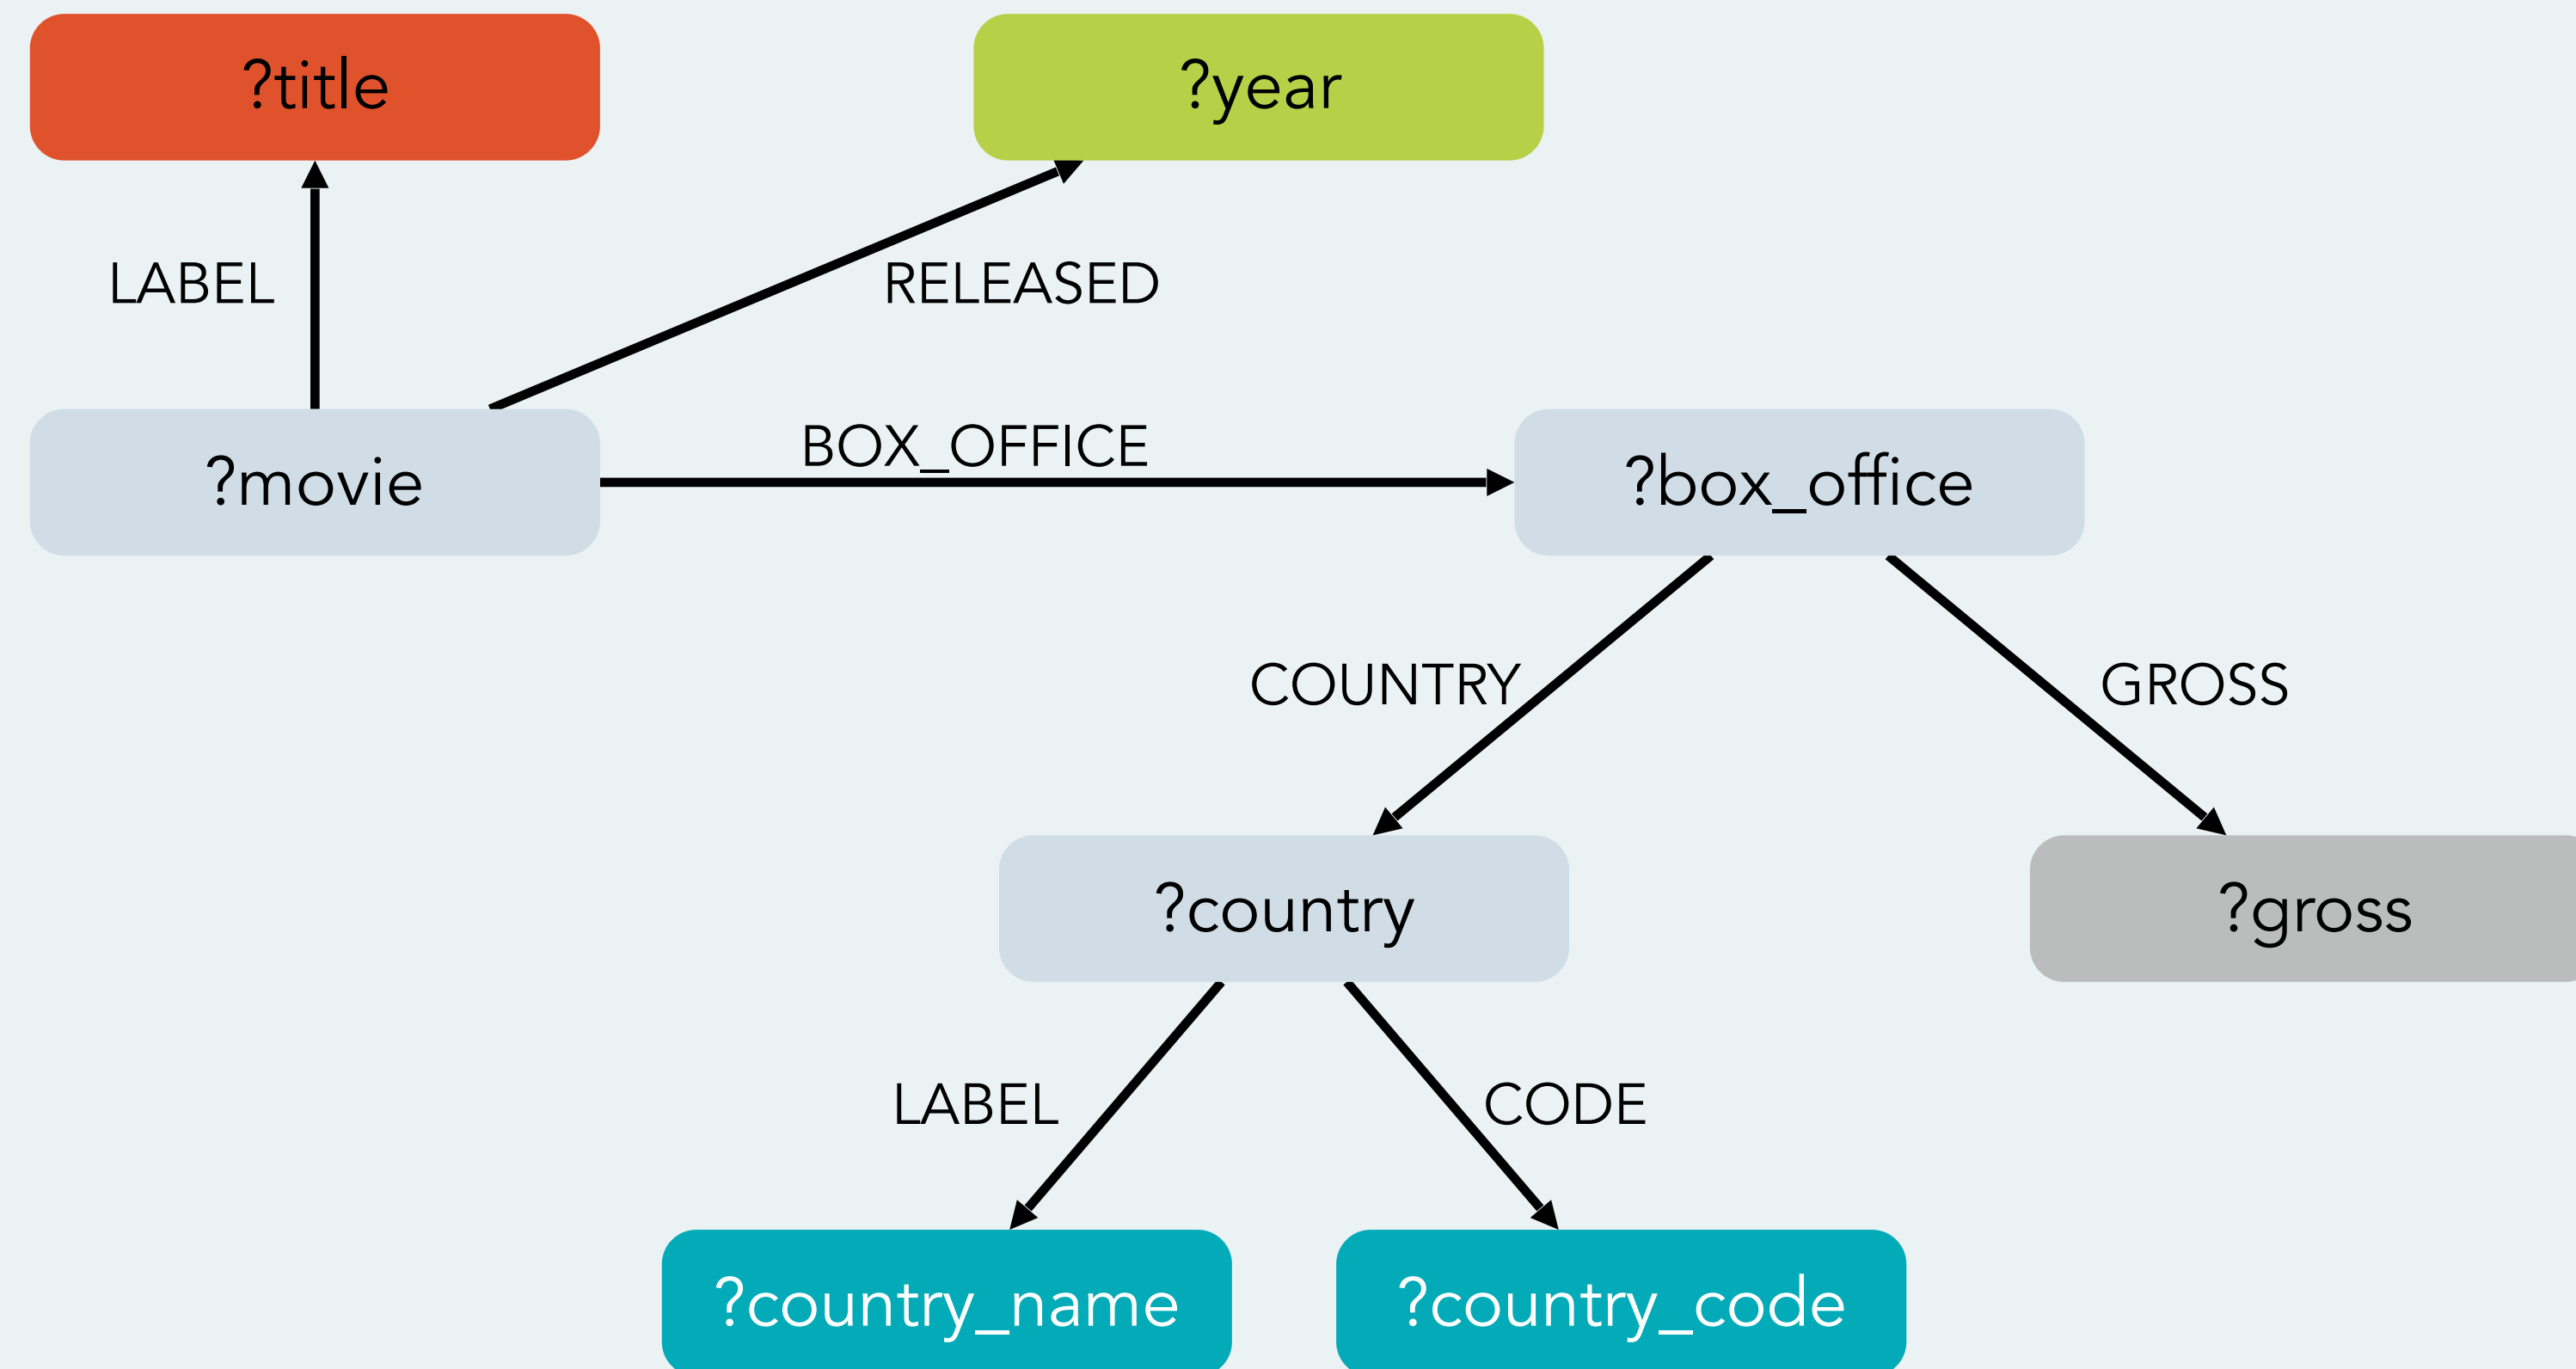

# VIRTUAL GRAPHS

# WHAT'S A KNOWLEDGE TOOLKIT?

- **VIRTUAL GRAPHS** build knowledge across silos.
- **BUSINESS LOGIC** builds reusable, **LOGICAL REASONING** into the graph
- **INTEGRITY CONSTRAINT VALIDATION** empowers data standards
- **MACHINE LEARNING** integrates statistical reasoning

PETE NORVIG WAS RIGHT  
“More data beats better algorithms”  
**BUT WHY CHOOSE?**

Machine learning in the Knowledge Graph means:

- **MORE DATA.** Virtual graphs mean easily available, large training models.
- **FASTER LEARNING.** Online libraries learn faster than a database can write.
- **CONSTANT IMPROVEMENT.** Knowledge Graph learning uses fresh, timely data.
